Re: Reclamation of Disturbance, State Septarian Leases, Tetla Mine, S/025/006, Kane County, Utah

Dear Mr. Johnson:

On September 11, 1995, the Division sent you a letter (copy enclosed) stating that reclamation of at least 4.2 acres of mining disturbance, associated with your State Septarian nodule leases, must be accomplished no later than October 16, 1995. We asked that you notify us immediately if the reclamation could not be accomplished by this date. We have not heard from you; therefore, we assume that you were able to complete the necessary reclamation work as required.

The Division has not been able to schedule another followup site visit to date because of other pressing issues. Please send us a written response within 10 days of your receipt of this letter confirming that the required reclamation work has been accomplished. We hope to schedule another inspection in the near term to determine if your reclamation work meets the Division's performance standards.

Thank you for your cooperation. If you have any questions concerning this letter, please call me or Tom Munson of my staff at your earliest convenience.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor  
Minerals Regulatory Program
